PHP · PYTHON · C# · SQL

TOOLS & DESIGN

GIT / GITHUB · VITE · VERCEL · FIGMA · UI/UX · RESPONSIVE

01 About

I'm a front-end developer who gets excited about **well-crafted, unique projects** — the kind where someone hands you a challenge and trusts you to build something that hasn't been done before. Building for clients **since 2022**, with **28+ projects** delivered worldwide, I've learned that great web development is equal parts design sense and clean code. Currently studying Informatics at UITM Rzeszów, and looking for an internship where I can contribute and grow as part of a team.

02 Experience

Front-End Developer — 2023 – 2024

Dreamer Studio — Polish Web Agency

- → Built multi-page corporate websites: QBL (20+ pages), Nations On Fire, Ski-Carv, and DreamApart.
- → Translated Figma designs into pixel-perfect, fully responsive builds with custom scroll animations.
- → Collaborated within an agency workflow, consistently meeting client deadlines.

Freelance Web Developer — 2022 – Present

Fiverr · UpWork — International Clients

- → Delivered 28+ projects — landing pages, portfolios, e-commerce sites, and custom web applications.
- → Managed the full project lifecycle: from gathering requirements to final deployment.
- → Maintained clear communication with international clients, ensuring on-time delivery.
- → Designed the VR Lounge website entirely from scratch — concept, layout, and code, no template used.

03 Education

University of Information Technology and Management — 2023 – Present

Bachelor's in Informatics · Rzeszów, Poland

04 Portfolio

vyshnevsky.com

Portfolio site — case studies, live demos, and full project showcase. Built with vanilla JS, GSAP and Three.js.

VISIT SITE ↗

↗ **github.com/oleksandr-vyshnevskyi**

28+ public repositories with README, live demos, and source code

05 Selected projects

2026

AD Aerospace ↗

Full redesign and custom WordPress build for an aerospace camera manufacturer — client-editable content, WCAG, 4 languages.

WORDPRESS · PHP · ACF · JS

2026

React Product Catalog ↗

SPA catalog with search, filters and routing, a custom data-fetching hook and responsive CSS without UI libraries.

REACT · TYPESCRIPT · VITE

2023

QBL Platform ↗

Multi-page B2B website for an industrial storage manufacturer — 20+ pages built from an agency design.

HTML · CSS · JS
